# CUSTOM PAINTINGS?

Everyone would love to have a painting of how they are visually portrayed by artists. Or, just to have something or someone in your home that inspires you. A custom painting from CreativeBre™ can do just that.

# DIGITAL ILLUSTRATIONS.

Are you looking to cartoon yourself? Whether it be for your business, social media profile or simply just for fun.

A digital/cartoon illustration is a type of illustration, typically in a non-realistic or semi-realistic style. It is used extensively in web design, as well as in the creation of posters, t-shirts, computer animation, and advertisements.

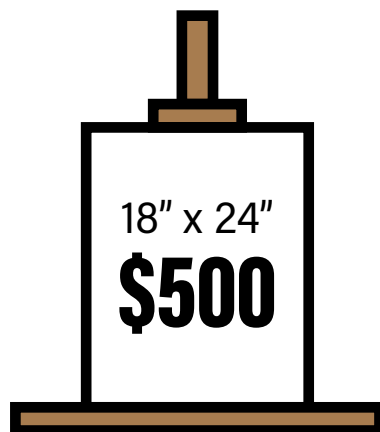

# WHY CREATIVEBRE™?

---

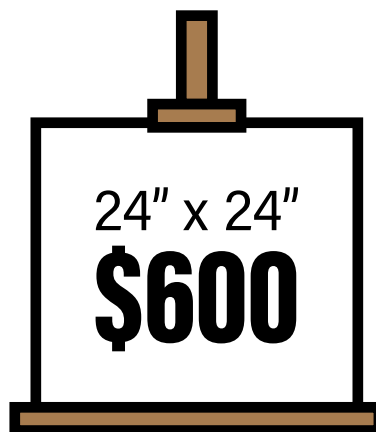

It could be said that I have a graphic design painting style. The style includes clean lines, solid saturated color and bold black lines to exaggerate features. In creating a work of art, I focus on how different shapes work together to form an image. I carefully craft my paintings so that each one is unique and meaningful to each client.
